JAC METALLIC

Print carrier

Average values

JAC® Metallic is a series of paper-laminated foils available in a silver gloss shade. They are used for the manufacture of high-quality labels and stickers, e. g. corporate emblems, nameplates on machines and kitchen appliances, quality seals etc., and for the labeling of up-market cosmetic products.

JAC® Metallic is suitable for all (excluding digital print) printing processes (special printing inks are required for letterpress and offset).
